- Now I am grateful to God, EAR- D Byumba, Christian Hope and my former sponsor that I have found a meaningful holistic life.
- After my studies, I have run 3 main income generating activities and these include security guard, livestock ,agriculture and 1 volunteering activity.
- Security:** I served as security guard in STRABARG Company for 12 months with 70,000.Rwandan Francs each month.
- Agriculture:** I bought a piece of land of 50 m x 60 m with 1,000,000.Rwandan Francs. In this activity I had saved I had saved 500,000 Rwandan Franks and borrow 500,000 Rwandan Francs from the bank. I am reimbursing this loan with income from the milk and agriculture. I cultivate various crops such as Irish potatoes, onions, tomatoes and beans.
- Livestock:** I saved money I had been paid from STRABARG and then buy 3 cows and I have sold some goats and few cows to run other activities.
- **Volunteerism:** I am committed Christian in my local church and attend every service that is organized any time. I served as accountant of the sub parish I belong to for 3 years.
- I have built a house from some money I worked from STRABARG
- I have future plans: Starting a boutique business, starting a driving school and I have a girl friend to marry.

Shelter

Francois Xavier thanks the Lord God that he was able to get a plot and was able to build a house of 25 iron sheets with 800,000 Rwandan Francs , in 2013.

Livestock

Francois Xavier caters for the cow and its calf. He can get 20,000 Rwandan Francs per month and this helps him to reimburse the remaining loan of value of 100,000 Francs and fertilize the land

Agriculture

I am very glad to work in my own land. These are Irish potatoes and are ready to be harvested. I expect to have 400 kilos of potatoes. I and my 2 sisters can have two meals a day.
