

Improving the school building with the provision of a hall which could be used for assemblies, meetings and meal times was a high priority at Gahima Agape School a few years ago. To enable this essential work to go ahead a loan was arranged and the building was completed.

As you can see from the picture below it is a wonderful asset for this school. Repaying the loan has been the priority this year and the School Partners funds sent enabled the loan to be cleared during 2016.

**During our visit to Kibungo in 2013 we were entertained by the students in this hall and saw first hand the difference this facility made to the entire school.**
