

# HEALTHY LIVING!!

As the drought ended and the prayed for rains arrived in Kaleere so, unfortunately, did the mosquito's, inevitably bringing Malaria to this struggling community. Most of the elderly and their grandchildren were affected.

With the nearest clinic 6km away, no transport and little money to pay for such luxuries as medical attention what could be done?

Your donations enabled us to send £1000 which purchased a large amount of medicines and enabled a small medical team comprising of a doctor, medical assistant and a nurse, to visit the village. Sixty three elderly, a large number of children and others in the community were treated for malaria, pneumonia, stomach ulcers and other easily treatable conditions.

**TREATMENT IS FINE BUT  
PREVENTION IS BETTER**

**So a further £650 has now been sent to provide mosquito nets for those families in most need.**

**Thank You**
