

# EASTER FOCUS

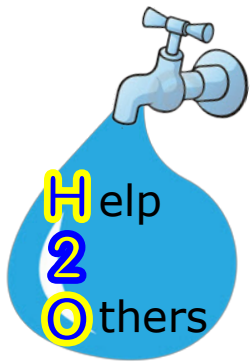

Having supported our work in Uganda over the last few years David, accompanied by his nephew Will, decided to visit the Uganda projects. Their visit is nearing it's end as we prepare this update but thanks to the wonders of modern technology we have already received some photo's of their time in Kaleere Parish.

Our urgent appeal at the end of 2016 when the crops failed in this region due to severe drought, received a fantastic response, but we felt it would be preferable if this community had better access to safe water and as a consequence two shallow wells were recently funded. We have since learnt that these two wells are serving thirteen villages and locals queue until 2am to collect water!!!!

We have agreed to fund a further two shallow wells and are currently trying to raise funds to assist the elderly in this village with the means to collect and store water at their homes. By providing a jerrican, watering can and water drum to each family they will be able to take better care of their crops during dry periods.
