

Thank you

At the beginning of 2019 Gikonko School, in the Butare Diocese of Rwanda, tasked themselves with revamping the computer room in the school. The floor was concreted and painted instead of being a dusty mud floor, and the leaky roof was carefully maintained and made water tight. All thanks to your generosity.

Sadly we had news on 1 October that there had been tremendous storms and the dormitory at the school had been badly damaged. Some boys were taken to hospital after being rescued from beneath the fallen roofing sheets. We await news of their welfare.

The School Partner funds recently sent will be used to build a vegetable garden at the school. Due to the more urgent demands however, the start of this project will understandably be delayed.

Searching for the injured

Salvaging their few belongings

Your support makes a real difference to this excellent school.

Please keep them in your prayers
